

PSHE (Personal, Social, Health Education) Policy
(including Relationships and Health Education statutory from
September 2020, and our position on Sex Education)

Agreed by Governors:

July 2026

Signed: _____

Next Review Date:

July 2027

Version Control	
Feb 23 - V1	Policy adopted
July 26	Policy changes in line with legislation

Context

All schools must provide a curriculum that is broadly based, balanced and meets the needs of all pupils. Under section 78 of the Education Act 2002 and the Academies Act 2010, a PSHE curriculum:

- Promotes the spiritual, moral, cultural, mental and physical development of pupils at the school and of society, and
- Prepares pupils at the school for the opportunities, responsibilities and experiences of later life.

This policy meets the requirements that schools publish a Relationships and Sex Education policy and does this within the wider context of Personal, Social and Health Education.

PSHE

At Abbots Hall Primary Academy, we teach Personal, Social, Health Education as a whole-school approach to underpin children's development as people and because we believe that this also supports their learning capacity.

We use Jigsaw PSHE as our curriculum framework because it provides a comprehensive, carefully sequenced scheme of work that brings consistency and progression to children's learning across their primary years. Built on current research and best practice in child development, safeguarding and health education, it is kept continuously up to date with evolving statutory guidance and enables us to deliver high-quality PSHE education that meets our children's needs.

This also supports the "Personal Development" and "Behaviour and Attitude" aspects evaluated under the Ofsted Inspection Framework, as well as significantly contributing to the school's Safeguarding and Equality Duties, the Government's British Values agenda and the SMSC (Spiritual, Moral, Social, Cultural) development opportunities provided for our children.

Statutory Relationships and Health Education

The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations (updated July 2025) make Relationships Education and Health Education statutory for all primary-aged pupils. These subjects must be taught in all maintained schools, academies, independent schools, maintained special schools, non-maintained special schools, and alternative provision settings.

We deliver statutory Relationships and Health Education within our comprehensive PSHE programme, using materials from Jigsaw PSHE 3-11. This provides children with a carefully sequenced, age-appropriate curriculum that meets all statutory requirements whilst also developing wider personal and social capabilities. Our PSHE curriculum also supports our safeguarding responsibilities as set out in Keeping Children Safe in Education and the Prevent Duty, helping children to recognise concerns, stay safe online and offline, and seek help when needed.

Here, at Abbots Hall Primary Academy we value PSHE as one way to support children's development as human beings, to enable them to understand and respect who they are, to empower them with a voice and to equip them for life and learning.

We also ensure aspects of PSHE are taught, shared and celebrated through our values; confidence, resilience, courage, respect, compassion and responsibility [Fig. 1] and the Future Citizens Programme. These values are celebrated within the academy's assembly themes as well as part of a 'soft curriculum' of adult role modelling and consistent reinforcement. We promote the acceptance of and engagement with the fundamental British values and these are integral to our character curriculum.

To ensure progression and a spiral curriculum, we use Jigsaw, the mindful approach to PSHE, as our chosen teaching and learning programme and tailor it to your children's needs. The mapping document: Jigsaw 3-11 and statutory Relationships and Health Education, shows exactly how Jigsaw and therefore our school, meets the statutory Relationships and Health Education requirements.

This programme's complimentary update policy ensures we are always using the most up to date teaching materials and that our teachers are well-supported.

Our PSHE policy is informed by existing DfE guidance:

- [Keeping Children Safe in Education](#) (statutory guidance)
- [DfE Relationships Education, Relationships and Sex Education and Health Education](#) statutory guidance (July 2025)
- [Respectful School Communities: Self Review and Signposting Tool](#) (a tool to support a whole school approach that promotes respect and discipline)
- [Behaviour and Discipline in Schools](#) (advice for schools, including advice for appropriate behaviour between pupils)
- [Equality Act 2010 and schools](#)
- [SEND code of practice: 0 to 25 years](#) (statutory guidance)
- [Alternative Provision](#) (statutory guidance)
- [Mental Health and Behaviour in Schools](#) (advice for schools)
- [Preventing and Tackling Bullying](#) (advice for schools, including advice on [cyberbullying](#))
- [The Equality and Human Rights Commission Advice and Guidance](#) (provides advice on avoiding discrimination in a variety of educational contexts)
- [Promoting Fundamental British Values as part of SMSC in schools](#) (guidance for maintained schools on promoting basic important British values as part of pupils' spiritual, moral, social and cultural (SMSC))
- [SMSC requirements for independent schools](#) (guidance for independent schools on how they should support pupils' spiritual, moral, social and cultural development).
- [The Prevent Duty](#) (Counter-Terrorism and Security Act 2015)

The Jigsaw Programme is aligned to the PSHE Association Programmes of Study for PSHE.

What do we teach when, and who teaches it?

Whole-school approach

Jigsaw covers all areas of PSHE for the primary phase including statutory Relationships and Health Education. The table below gives the learning theme of each of the six Puzzles (units) and these are taught across the school; the learning deepens and broadens every year.

TERM	PUZZLE	KEY CONTENT
AUTUMN 1	Being Me in My World	Understanding personal identity, my place in the class and school community, rights and responsibilities, democracy, making a positive contribution.
AUTUMN 2	Celebrating Difference	Recognising and respecting diversity, challenging stereotypes, understanding difference and similarity, addressing bullying, building empathy and compassion.
SPRING 1	Dreams and Goals	Setting and working towards goals, understanding aspirations and future possibilities, developing perseverance and resilience, recognising achievements, working collaboratively.
SPRING 2	Healthy Me	The relationship between physical and emotional health; nutrition, sleep, exercise and hygiene; emotional wellbeing; drug education (including medicines); keeping safe; understanding habits and making healthy lifestyle choices.
SUMMER 1	Relationships	Understanding different relationships and their characteristics, our families, managing friendship challenges, conflict resolution and communication skills, recognising when relationships are unhealthy, understanding loss and bereavement.
SUMMER 2	Changing Me	Understanding life cycles and human growth, coping positively with change, body image and self-esteem, puberty education, changing relationships, and for upper Key Stage 2, human reproduction (where taught as sex education).

At Abbots Hall Primary Academy we allocate 1 lesson to PSHE each week in order to teach the PSHE knowledge and skills in a developmental and age-appropriate way.

These explicit lessons are reinforced and enhanced in many ways:

Assemblies, praise and reward system, Learning Charter, through relationships child to child, adult to child and adult to adult across the school. We aim to 'live' what is learnt and apply it to everyday situations in the school community.

Class teachers deliver the weekly lessons to their own classes.

Relationships and Health Education: Statutory Content

Relationships Education

Relationships Education is compulsory for all primary-aged children and there is no right of withdrawal. It focuses on teaching children the fundamental building blocks of positive, respectful relationships with family, friends, peers and adults.

By the end of primary school, our children will understand:

- Families and people who care for me - That families come in many forms and all can provide love, security and stability; the characteristics of healthy family life; how to recognise unhealthy family relationships and seek help; marriage and civil partnerships as legal commitments.
- Caring friendships - How friendships contribute to happiness and security; characteristics of healthy friendships including mutual respect, trust, loyalty and kindness; how to recognise and navigate friendship difficulties; how to make and maintain positive friendships.
- Respectful, kind relationships - The importance of paying attention to others' needs; setting and respecting boundaries; communicating effectively and managing conflict with kindness; the importance of respect and self-respect; different types of bullying and how to respond; understanding stereotypes and how to challenge them.
- Online safety and awareness - How to behave respectfully online; critically evaluating online relationships and information; understanding privacy and personal information; recognising and reporting online risks; age restrictions for social media; understanding that content online can be inappropriate or upsetting.
- Being safe - Understanding appropriate and inappropriate boundaries; concepts of privacy and consent; that each person's body belongs to them; how to recognise when relationships are unsafe; how to respond to concerning adults; how to report abuse and seek help with confidence.

Health Education

Health Education is compulsory for all primary-aged children and there is no right of withdrawal. It focuses on supporting children to make informed decisions about their health and wellbeing.

By the end of primary school, our children will understand:

- Mental wellbeing - The normal range of emotions; how to recognise, talk about and manage feelings; simple self-care techniques; that mental health challenges are common and can be supported; where and how to seek help when needed.
- Internet safety and harms - The benefits and risks of internet use; rationing screen time; recognising and displaying respectful online behaviour; age restrictions on games and apps; being discerning about online information; where to report concerns.
- Physical health and fitness - Benefits of an active lifestyle; building regular physical activity into routines; risks of inactive lifestyles; when to seek health support.
- Healthy eating - What constitutes a healthy diet; principles of healthy meal planning; risks of unhealthy eating including impacts on teeth and weight; impacts of alcohol on health.
- Drugs, alcohol, tobacco and vaping - Age-appropriate facts about legal and illegal substances and associated risks, including the risks of nicotine addiction.
- Health protection and prevention - Recognising early signs of illness; sun safety; importance of good quality sleep; dental health and oral hygiene; personal hygiene and germ spread; facts about vaccination and immunisation.
- Personal safety - Recognising hazards and reducing risks; road, water and rail safety; when and how to seek help in emergencies.
- Basic first aid - How to make emergency calls; dealing with common injuries including head injuries.

- Developing bodies - Understanding growth and body changes during adolescence; correct names for body parts; facts about the menstrual cycle including physical and emotional changes (noting that whilst average age of menstruation is 12, it can begin from age 8, so we teach this content before girls experience menstruation)

Sex Education

The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations (updated July 2025) make Relationships Education and Health Education statutory for all primary-aged pupils. These subjects must be taught in all maintained schools, academies, independent schools, maintained special schools, non-maintained special schools, and alternative provision settings.

Sex education is not compulsory in primary schools, however the Department for Education recommends that all primary schools teach age-appropriate sex education to ensure children are prepared for the changes adolescence brings and understand how human life begins. We teach age-appropriate sex education in Years 5 and 6 as part of our PSHE curriculum, going beyond the statutory content about puberty to include factual information about human reproduction. We believe this information is important for children before they leave primary school, particularly as children naturally become more aware and curious about how life begins, and may seek information from less reliable sources if we do not provide age-appropriate, factual teaching.

We define sex education as learning about human reproduction. It is defined as those lessons covering sexual intercourse, conception, the stages of pregnancy and birth. It includes the emotional impact of having a baby as well as the physical facts. Sex education is not learning about different types of sexual activity.

This is distinct from the statutory Health Education content about puberty and menstruation, and from Science curriculum content about life cycles and reproduction in mammals, from which children cannot be withdrawn.

The following Jigsaw lessons in the Changing Me Puzzle contain non-statutory sex education content:

Year 5: Conception

Year 6: Babies: Conception to Birth

Parents' right to request their child be excused from Sex Education

Parents have the right to request that their child be withdrawn from some or all of sex education taught as part of PSHE. Parents do NOT have the right to withdraw children from:

- ***Relationships Education (statutory)***
- ***Health Education, including puberty education (statutory)***
- ***Science curriculum content, including content about reproduction (statutory)***

At Abbots Hall Primary Academy, puberty is taught as a statutory requirement of Health Education and covered by our Jigsaw PSHE Programme in the 'Changing Me' Puzzle (unit). We conclude that sex education refers to Human Reproduction, and therefore inform parents of their right to request their child be withdrawn from the PSHE lessons that explicitly teach this i.e. the Jigsaw Changing Me Puzzle (unit) e.g.

Year 5: Conception

Year 6: Babies: Conception to Birth

The school will inform parents of this right by the end of Summer 1 term. Parents would be required to complete the Parent Withdrawal Form and have a subsequent conversation with the PSHE Lead and the Family Support Worker if deemed necessary. The Headteacher will be informed of the request and permission given for the pupil to be withdrawn from the above lessons.

Responding to children's questions

We recognise that children may ask questions beyond our planned curriculum. Teachers use professional judgement to respond, and may answer briefly and factually if age-appropriate, suggest the child speaks with their parent or carer, or acknowledge the question while explaining they'll learn more when older.

If a withdrawn child asks questions about sex education content, teachers will sensitively explain this is something their parents would like to discuss at home. We will inform parents so they can follow up.

Monitoring and Review

The governing board monitors this policy on an annual basis and modifications made if necessary. The governing board gives serious consideration to any comments from parents about the PSHE (RSHE) programme, and makes a record of all such comments. Governors scrutinise and ratify teaching materials to check they are in accordance with the school's ethos.

Equality

This policy will inform the school's Equalities Plan.

We comply with the Equality Act 2010 and the Public Sector Equality Duty, ensuring that PSHE is taught in a way that:

- Does not subject pupils to discrimination
- Promotes equality of opportunity
- Fosters good relations between people with protected characteristics and those without

The protected characteristics are: age, disability, gender reassignment, marriage or civil partnership, pregnancy and maternity, race, religion or belief, sex, and sexual orientation.

Throughout PSHE education, children learn that all people deserve to be treated with respect and kindness, regardless of difference. This is a fundamental principle that runs through all our teaching. In teaching about families and relationships, we include same-sex parents alongside other family structures, presented naturally as one of the many different types of families that children may have or encounter. This content is integrated throughout the curriculum rather than taught as a standalone topic, ensuring that diverse families are visible and valued within our school community. Children learn about treating others with kindness and respect, understanding that people have protection from discrimination and should be treated with dignity and respect, and that there are laws in place to protect people's rights. Pupils learn how bullying or discriminatory behaviour is never acceptable and how to report this for themselves or others.

At Abbots Hall Primary Academy, we promote respect for all and value every individual child. We also respect the right of our children, their families and our staff, to hold beliefs, religious or otherwise, and understand that sometimes these may be in tension with our approach to some aspects of Relationships, Health and Sex Education.

Jigsaw PSHE 3-11 does not include content on gender questioning or transgender topics. Our focus at primary level is on teaching children to respect all people and to challenge stereotypes about what boys and girls can do, be, or achieve, without introducing complex concepts about gender identity.

For detailed information about what Jigsaw PSHE 3-11 teaches about LGBT relationships, schools can access our supporting document 'Including and Valuing All Children: What does Jigsaw PSHE 3-11 teach about LGBT relationships?' which provides specific examples from lessons and addresses common questions.

Jigsaw PSHE supplementary documents needed to explain this policy:

- Jigsaw 3-11 and statutory Relationships and Health Education (mapping document)
- Including and valuing all children. What does Jigsaw teach about LGBTQ relationships?
